ECM score overview

These five Every Child Matters (ECM) outcomes are measured by five groups of relevant questions in the pupil questionnaire. A pupil's score in an ECM outcome is calculated by scoring his/her responses in the group of questions relevant to that outcome. Your school's score in an ECM outcome is the average of all responding pupils in your school.

To aid comparison, the ECM scores have been standardised so that the national average is 100.

A pupil's score in an ECM outcome is calculated by scoring his/her responses in the group of questions relevant to that outcome. To aid comparison, the ECM scores have been standardised so that the national average is 100.

These tables show the percentage of pupils scoring above or below the national average. Cells are colour coded if your school is significantly different in terms of the percentage of pupils scoring above the national average. Green indicates that significantly more pupils at your school have scored higher than the national average, whilst red indicates the opposite.

The five Every Child Matters (ECM) outcomes are measured by five groups of relevant questions in the pupil questionnaire.
A pupil's score in an ECM outcome is calculated by scoring his/her responses in the group of questions relevant to that outcome.
Your school's score in an ECM outcome is the average of all responding pupils in your school.
To aid comparison, the ECM scores have been standardised so that the national average is 100.

* Mean scores are presented in the table below. If there were only a few respondents in a particular subgroup, caution must be taken when interpreting the mean scores as they are based on small numbers.

School mean ECM scores		All schools			Your school

	Be Healthy	100	99	101	98	99	97	104	91	96	102

	Achieve Economic Well-being	100	99	101	95	94	95	90	92	94	98

* Percentages are presented throughout the report. Where the number of respondents is small, figures need to be treated with a degree of caution in order not to misinterpret the findings.

* Due to rounding, percentages may not sum to 100.
