

The Impact of Primary PE and Sport Premium at Brundall Primary School 2016/7

Key priorities to date:	Key achievements/What worked well:	Key Learning/What will change next year:
<p>1. To increase participation in competitive sport</p>	<ul style="list-style-type: none"> • School achieved Sainsbury's Games Silver Award for Inter School competition • A and B teams were sent to rugby and netball matches. • Additional Competitive opportunities offered to year groups (Inter House Sportshall, running, netball, cricket competitions) • Running club set up by Mr Gayford and supported by Mrs Carver and Mr Applegate which has approximately 25 members on a Thursday after school. The website details this popular and free club which is open to Year 3 and above. • Brundall Park Run continues to grow each week. Children are reporting P.Bs to staff as they beat their times and improve personal performances 	<p>School will aim for Silver Award again. We will enter more competitions and send A & B teams so more children will have the opportunity to compete.</p> <p>Following recent research we will focus on additional opportunities for girls to become more active.</p> <p>Improve range of competitive opportunities offered to Years 3-4 and girls.</p>
<p>2. To raise the profile of PE and sport as a tool for whole</p>	<ul style="list-style-type: none"> • Feeling Good Week (May 2017) highlighted the importance of a healthy body and mind. The children took part in a number of health based activities The 	<p>The legacy money will ensure that future Year 6 classes will have the opportunity to visit the Sportpark before they leave our school, so that they become aware of the fantastic facilities that are available to them now and as adults.</p>

<p>school improvement</p>	<p>Sportspark at the U.E.A presented a whole school assembly to promote the importance of exercise and the many opportunities available. Year 6 children took part in a day of activities including rock climbing, Badminton and a circuit of other sports.</p> <p>The money also paid for Andrea Langan from Health Embrace to educate both parents and children in the importance of eating for energy and to kick start healthy lifestyles. She tackled hidden sugar in food and drinks and offered advice and tips for children to stay hydrated throughout the school day. Teachers have reported an increase in the uptake of water through the school day, with many children using fruit to infuse their drinking water. Andrea will also provide additional training to staff next week as part of our staff wellbeing programme.</p> <ul style="list-style-type: none"> • Attended School Sport Partnership meeting. • Continued use of website to raise profile of sport and its benefits and to inform parents of community links. • Inclusive Sports Day planned • Nature Group for identified group of boys was successfully led by Premier Sport. Staff noted an improvement in behaviour in the 	<p>Agility, Balance and Coordination Club will continue to run daily with children who have been identified as having a physical delay.</p> <p>New assessment materials are being used by staff to help children to identify how they can improve.</p>
---------------------------	---	--

<p>3. To increase the confidence, knowledge and skills of all staff in teaching PE and sport.</p>	<p>classroom (see attached letter sent by Mrs Whitehead to Rory Burnett describing the impact)</p> <ul style="list-style-type: none"> • impact) <p>Staff were surveyed to identify training needs. Gymnastics Inset for all staff held in January 2017. Positive feedback from staff and evidence of staff using new skills during walk throughs in the following weeks.</p>	<ul style="list-style-type: none"> • Outdoor Adventurous Activity training to be organised as Inset in 2017/18 academic year.
<p>4. The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles</p>	<p>A large chunk of our legacy money has been spent on upgrading our climbing wall. This was discussed at Pupil Council and is used daily by key Stage 2 children. Feedback includes, “It’s much better now and it’s more of a challenge.” “I use it more because it has a safer landing now.”</p> <p>A recent survey of Puffin class showed that 90% of the class had used it at lunchtime during the week.”</p> <p>Again Feeling Good Week helped to promote healthy active lives. Children were asked to complete how much physical exercise they took part in over a week and the message of sit less/move more was again promoted. Each class organised a Feeling Good Station and the children visited each station to learn strategies for both physical and mental health. The yoga station was</p>	<p>Meeting with Premier Sport in July to discuss and plan for the following year.</p>

	particularly successful with many positive messages from the youngest to the oldest pupils in our school. Ice skating was another popular activity enjoyed by Key Stage 2.

Impact of Sport Premium - October 2016

Hi there,

I work at Brundall school and have been lucky enough to have Rory Burnett work with some of my children this half term. I would just like to say what a great role model he has been to the boys and how supportive he has been to our class behaviour policy. It is a very challenging class and he was more than happy to listen to and follow our policy and always made sure that he was fair with the children. Rory was encouraging and had high standards and it was great to see the boys develop over the weeks. It was helpful to receive his appraisal of each child and his view that they need to channel their competitiveness and manage it in a positive way. I am hoping they will be able to do that when returning to class games and PE.

Please pass on our thanks to Rory.

Best wishes

Mrs A Whitehead.
