

Dear Parents and Carers

Home Learning is proving to be a new challenge to us all and it is a big learning curve! In order to continue to support our SEN learners from home, I have compiled a few websites which may be useful. As and when any new resources become available, I will also share those.

Structure and routine can be difficult in times such as these but Twinkl have some great online resources to help with visual timetables to structure your day. They also have resources for dyslexia which are very useful. I have added some app ideas for android and ipad onto the school website which are specifically designed for dyslexic learners and provide an alternative way of learning. It all counts!

You may find these websites useful:

Free e-books to read: <https://www.oxfordowl.co.uk/for-home>

Reading and Sound Blending: <https://www.teachyourmonstertoread.com>

Active Learning: <https://www.bbc.co.uk/teach/superheroes>

Maths: <https://www.topmarks.co.uk>

Stories on iPlayer: <https://www.bbc.co.uk/iplayer/episodes/b00jdlm2/cbeebies-bedtime-stories>

Home learning resources from

Twinkl: <https://www.twinkl.co.uk/resources/parents>

Phonics games: <https://www.phonicsplay.co.uk>

Below is the link that Norfolk County Council is using to put additional learning resources for schools and families including those with SEND to use:

<https://www.norfolk.gov.uk/education-and-learning/schools/educational-resources>

If you are finding that your child is struggling to keep sustained concentration, try doing the work in short sessions with lots of breaks. Brain gym or sensory circuits are a great way to refocus and there are lots of short videos available on YouTube.

You can also find maths lessons on <https://www.whizz.com/maths-resources/maths-worksheets/making-maths-stick/> which are particularly useful if your child has dyscalculia or barrier to learning in this area.

I hope you find these resources useful and keep up the good work!

Mrs Sutton
