

REMOTE LEARNING PLAN

This is to be referred to in the event of a school closure due to COVID 19 guidelines

In the ever-changing circumstances we are living through, we have to be prepared to respond to a local lockdown or a bubble closure within school. In the event of a closure, Brundall School will implement provision for remote learning. This will continue to provide high quality learning, linked to our curriculum.

If our school or a class bubble is closed for an isolation period, parents will be notified of when their child can return.

We will provide home learning through:

- Online learning portals – Office 365 TEAMS
- Online material linked to those recommended by DfE
- Pre-recorded video
- Educational websites / videos

Teachers will:

- Set assignments
- Deliver planned, well sequenced lessons
- Assess progress by questions on the portal and check that work has been completed
- Tailor the learning based on the children's response to the learning

TEAMS PLATFORM

As a school we now access Office 365 and TEAMS as our online portal. All children will receive an email address and a password. This will be different to the previous google sign in, as we no longer use this as a school.

Accounts can be accessed by going to the Brundall School website and clicking on the email link on the home page.

Using your child's email and password you can log onto the account.

On the left hand side of the page will be a series of icons and you will need to select TEAMS  to access the home learning portal

Within this link, teachers will set all the work and assignments that the children will be required to do.
