

REMOTE LEARNING WHILST SELF ISOLATING

If you are self-isolating but the school bubble is still open please refer to this document which will provide an outline for learning during this time. If the school bubble is still open it must be understood that class teachers are teaching and planning for the class full-time, therefore parents can refer to this plan.

Timetable

The expectation during isolation for home learning will be as follows:

- 1 x focused session of Maths
- 1 x focused session of English
- 1 x focused session for Reading
- 1 x focused session of exercise / PE

Websites

The websites that can be accessed for the above are:

- <https://www.thenational.academy/> - here you will find lessons for both maths and English for your child's age. Choose something that was identified as a target or from class teacher's direction.
- <https://www.bbc.co.uk/bitesize> - this is a quick website for finding short and succinct lessons for all ages.
- <https://www.topmarks.co.uk/maths-games/5-7-years/counting> - this is a website for maths games and can be used for all ages.
- <https://home.oxfordowl.co.uk/reading/> - this is a website aimed at helping reading skills
- <https://whiterosemaths.com/homelearning/> - this follows the scheme of work we are using in lessons

As a school, we understand the pressures faced by families when isolating and remote learning. The above can be used as a structure.
