

Recording/ Writing

- Clicker 8. This is software that is being offered for free until February half term. You can access it by.....
- www.Talktyper.com – this will record your voice and turn to text. You must remember to add the punctuation as you talk or you could print the work and add after. This is a great tool as it takes the pressure away from processing ideas, and then having to record them in one go. It breaks down what can seem like a huge task to some learners.
- Use your device to record ideas and then keep listening back to them whilst you write them down

Mindmaps for planning work

Find more information at dyslexiclogic.com

These can be a really good way of getting children to sort out ideas and is a mixture of words and pictures.

Reading

- Lovereading4kids.co.uk is useful for recommending books for all ages and interests.
- We will be setting up Oxford Owl soon which can be accessed for all children....details to follow
- Audio books are another great idea
- Reading together, find a cosy area and take it in turns to read and discuss the story.

Lots of energy?

Lack of concentration?

Try Sensory Circuits using this link...

Supporting Learning Needs at Home

Find free **webinars** at:

www.bdadyslexia.org.uk/events

Spellings

- Try writing the spellings in foam, sand, mud, using magnetic letters. Lots of visuals and active learning can really help
- These apps are a great way to learn spellings

Use Sumdog to practice those maths skills

Make your screens friendly....

- *Try a different coloured background as black on white can be difficult for some learner
- * Use font size 12 or above and space out any lines of writing
