

Brundall Primary School Early Years

Our teaching and learning follows the Early Years Foundation Stage Curriculum and our whole school vision of creating confident and successful learners. Throughout the year, our teaching opportunities reinforce key messages that we are all unique and special and play an important part in our world community. Interwoven throughout our curriculum are the values of kindness, honesty and curiosity.

We believe the development of communication and language as the foundation of thinking and learning. Learning to read is at the heart of our curriculum and high emphasis is placed on developing a life-long love of literature. Our children will experience direct daily teaching of reading, writing and mathematics, including frequent opportunities for children to practise and consolidate their skills through high quality adult-child interactions. We plan using overarching themes which are both teacher led and offer well planned play based continuous provision, which follows the interests of the children. We recognise and value the importance of play and the high levels of motivation that it creates as well as the value of first-hand experiences within our community, which help our learners, connect with the world around them.

Our aim is that by the end of Reception our children are motivated and excited about their learning, are independent and take responsibility for themselves and their environments.
