

Maths

This half term we will be delving into decimals and having fun with fractions. We will also be looking at the number system including negative numbers and focusing on problem solving. We will of course also be continuing with our mastery of the multiplication tables!

Year 3/4
Spring
Term 1

Our English Texts and Outcomes

This term the children will receive a weekly skills lesson focusing on spelling, punctuation and grammar. We will be enjoying myths and looking at the features of these before trying to write our own marvellous myths.

Our science this half term is
"What a racket!"

We will be exploring the science of sound and developing our investigative skills. We will be undertaking lots of experiments and learning how to record these in a scientific manner.

Topic

The Groovy Greeks will be the focus of our humanities block. We will be looking at the legacy of the ancient Greeks, their belief systems and the way of life in different city states.

Art / D.T.

This half term we will be making 3D structures using a variety of media. This will be linked to our humanities project.

Early in the half term we will be having a day of RE focusing on Buddhism. We will continue learning French and developing our skills in music. In PE we will be developing our ball skills and game making.
